Letter No: 021/2026

9th September 2026

Dear Families,

Digital Platforms 2026-2027

As we begin a new academic year, I would like to write to remind you about or introduce you to a number of digital systems which provide you with information about your child at school.

Bromcom's MyChildAtSchool (MCAS) is where you can access your child's timetable, details about any sanctions and their termly academic progress reports.

ePraise is a platform where you can view the house points, accolades and achievements your child has been awarded.

Google Guardian email summaries are useful email digests where you will be able to see the home learning tasks your child has been set by subject teachers via Google Classroom.

SOCS is an online platform for managing all extracurricular clubs and sports fixtures.

SchoolCloud is a platform used for our Parent Teacher Consultations held throughout the year. You will get a letter in advance of the consultation for your year group and instructions on how to access the system. Please note that only one parent (priority one) will be registered.

Each of these platforms has its own specific purpose in helping you as parents/carers keep up to date with how your child is getting on at school.

More detailed information about each individual platform can be found on the following dedicated page of the school website – [Parent/Carer Platforms](#)

Each platform requires you to either accept an invitation or login via the links on our website using the email address that you supplied to the school. The platforms will each be activated during the next couple of weeks. Below you will find further information relating to this:

MyChildAtSchool (MCAS) – Parents of students who joined the school this September will receive an email notification shortly.

ePraise – Parents of students who joined the school this September can log in using their provided email and choosing the “reset password” option.

Parents will be able to login to **SOCS** (our extracurricular activities system) [using the guide on this link](#) to get set up on the club sign up process.

Google Guardian summaries - Parents of students who joined the school this September, or have not previously accepted an invitation, will have received an invitation in August for Google Guardian Summaries which can be activated. Email summaries have been activated today, please follow the Getting Started with Google Classroom Guardian Summaries Guide when accepting your invitation. This can be found on the school website - [Parent/Carer Platforms](#)

You will receive invitations or account information via the email address you provided to the school. You can also login via the school website. We are unable to send this information to any other email address.

Please check your junk/spam folder for invitations if they cannot be found in your inbox. If you have any queries, please email data@sandringham.aetrust.uk

As this is a very busy time of year for our data and IT teams, we ask to please allow two weeks for accounts to be set up. As such, if you have a need to contact us via email, we would ask for your patience whilst awaiting a response.

Yours sincerely,

Andrew Cracknell
Assistant Headteacher
